RICO WINS

The Mile Race at Guttenburg in a Bursting Finish.

An Electric Battery Found Concealed About Jockey Cook.

GUTTENBURG RACE TRACE, March 25 .- Better weather could not have been made to than that which prevailed at Guttenburg to-day. The attendance was not as large as one might have expected. Indeed, it was a slim growd that turned out. The programme was an excellent one and bid fair to turnish excellent racing throughout the day. The track was dry on top, but heavy and bolding underneath, making fast racing out

of the question. The opening event furnished a large field. The opening event furnished a large field.

Character was so well thought of that he was made a hot favorite over his field. The second choice was Blackwood, against whom 6 to 1 was quoted, which shows how strong a favorite Character was.

Third Race—Gree mile.—Illian won. Jardine second, courtier third. Time—1.5234. favorite Character was. Opager was well played and so was Pardon

The winner turned up in My Craft, a 20 to 1 shot, who was dieverly ridden by Dwyer. Pardon and Ouager finished close up. Just after the first race "Virginia" Bradley and Mr. Katz, the reputed owner of Onager, which ran second, had a heated onager, which ran school matter. It seems Steeplechase at the Liverpool meeting to-day that Mr. Katz paid the boy lones for his was won by Father O'Flynn. Cloister was

mount instead of giving it to his employer, second and liex third.

Mr. Bradley. The latter remonstrated and a red-hot time ensued. Mr. Katz rested his RRIGHTON REAC hand on his hip pocket while talking. "Don't you draw any pistol on me!" quoth 'Cause if you do I'll kill you dead." · I'll give you a gun and let you shoot at me ten feet away, and bet you \$20 you can't hit

me!" excitedly replied Katz. The pair were tor of the Brighton Beach Race Track and of The second race went to Rico, who won after

a struggle with Turk, who had been reinstated.

Rico was third choice. Fenelon and Alma T., equal favorites, were not in it.

The third race went to Zenobia, a bot favorite. Logan pushed her hard at the finish, and she only landed by a nose. Stratagem was third.

There developed in this race a most peculiar thing, the details of which seemed like romance. The mare Gyda was ridden by Cook, who is regular jockey for W. Loveli.

The mare was in to carry 90 pounds, and the boy weighed our 5 pounds overweight. After the lace, when the boy returned to the scales, Secretary Carr reported that he was three pounds overweight, making his weight 98 pounds in all. Cook was called into the stand and questioned, "They must have given me a heavier saddle," he explained.

"That isn't so," said Mr. Carr.
"That saddle doesn't weigh over two pounds. Did you carry anything else?"

"Yes, sir; a lead pad," whimpered the boy, "You don't tell the stuth," said Mr. Carr.

"You don't tell the truth," said Mr. Carr. Come with me.

He took the boy to a room and stripped sim. Underneath his slik jacket Mr. Carround a complete cil electric battery.

This verifies the reports that have been dreulated regarding the use of electricity on barriers.

horses.
The battery was connected by wires with cosk's sours, and when these twere dug into the mare's sides it was supposed to shock her enough to increase her speed. She thinked sixth, however. The boy and owners will probably be ruled off.
